

AN IRREGUALR STORY OF A DOGS LIFE!

Figure 1 Dad and Oscar spend a lot of time on the front step watching the world go by!

Figure 2 Oscar makes good friends but can be shy to start with!

Figure 3 But soon his shyness gives way to real affection!!!

Figure 4 Oscar loves attention - even if it involves a little water!

Figure 5 Bath time's always fun - we may not have many winter baths like this however.

Figure 6: It's easy to forget Oscar is a puppy - this picture always reminds me.

Figure 7: After a bath it's always worth seeing if there's anyone around to appreciate how clean you are!

Figure 8 Oscar never forgets who is master of all he surveys!

I'll keep an irregular diary of Oscar's progress. Oscar seems to be enjoying most things at the moment – although some take a little getting used to! He's a very affectionate dog who's never had a lot of confidence. Once he gets his confidence he's a real handful – but I wouldn't change a thing!
